

ED-516 ETHERNET TO Digital IO 16 Inputs

ED-516

- 16 Digital Inputs
- Monitor any input from TTL to high voltage high current industrial devices
- 0 to 30 Volt inputs ideal for dry/Volt free contacts or wet contacts
- Supports Modbus TCP protocol

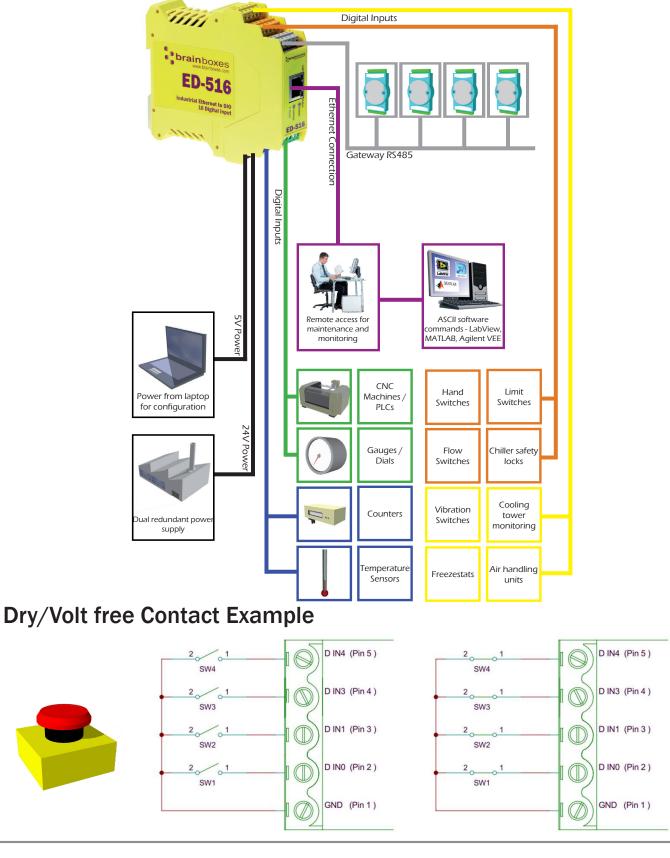

Connect, Configure, Control

Usage Model for ED-516

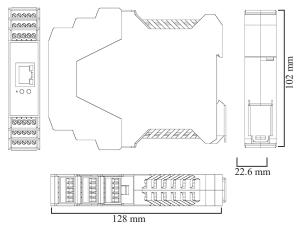

+44(0) 151 220 2500 sales@brainboxes.com www.brainboxes.com

Specification

Input Channels	16 non-isolated input channels
Low Logic Level	0V to +1.0V
High Logic Level	+2.0V to +30V
NPN/PNP	One jumper configures all inputs with either pull-up for NPN (contact closes to OV) type sensors, or pull-down for PNP (close to V+) type sensors
Input counting	User programmable – counts positive or negative transitions Up to 250Hz count rate 16-bit (65335 count) or 32-bit (4.2 billion count) counters Counter values persist over power-off periods
Input latching	Triggered by user programmable positive or negative edges, stays true until acknowledged
Debouncing	User programmable debouncing for noisy contact inputs

IP-20 rated non-conducting polyamide case Integrated DIN rail mount with functional earth connection Slim shape has a small foot print for when DIN rail space is a premium

Removable screw terminal blocks make installation easier and quicker Colour coded blocks and ports prevents incorrect connection

Numbered Pins simplifies wiring and removes confusion

Screw Terminals Wire Thickness 3.5mm pitch, #22 - #14, 0.5mm²-2.5mm² pin power supply 0.150 inch, 3.81mm, 20 pins, 12+8 screw terminals, #26 - #16 AWG, 0.14mm²-1.3mm²

Operating Temperature	+30°C to +80°C, -22°F to +176°F
Storage Temperature	-40°C to +85°C, -40°F to +185°F
Ambient Relative Humidity	5 to 95% (non-condensing)

Monitor CPU temperature via the web interface or programmatically using ASCII commands. Redundant dual power input allows a second power supply to be fitted as a back-up to prevent down time should one power source fail.

Can use a 5 Volt power from any computer USB port via optional accessory cable PW-650 - Useful for configuring the device from a laptop in the field.

Power Consumption2.5 Watt MaxPower Supply inputUnregulated +5VDC to +30VDC, reverse polarity protection

ED-516 Ethernet 16 DI

Isolation	1500 VRMS Magnetic isolation from Ethernet	
Ethernet Port	1 x RJ45 jack, 10/100Mhz autosensing, crossover auto sensing (Auto MDIX)	
Protection	1,500 Volts magnetic isolation between I/O ports and network	
Network Protocols	ICMP, IP, TCP, DHCP, Telnet, HTTP	
Connection to Netw	vork Ethernet 10BaseT / 100BaseTX	
	configure IP address, monitor state of I/O lines, set the Watchdog Timers Output Reset Value, Set Power on digital output value	
Interface of	No device driver needed, just open a TCP connection and send simple ASCII or Modbus commands. Software drivers give local COM Port interface for communication.	
	Find device configure ID address toot communication with compare	

Utility Programs Find device, configure IP address, test communication with console

Industry Standard Modbus TCP Protocol:

Device works as a Modbus TCP server. Modbus TCP can be used on the input and output lines. Examples include:

	Modbus access	Supported Modbus	Logical	984 style	IEC 61131
	type	function codes	address	address	address
Read digital inputs	Coil	1	0x0020	00033	%M32
Read digital inputs	Discrete input	2	0x0000	10001	n/a
Read digital inputs	Input register	4	0x0020	30033	n/a
Read DI counter values	Input register	4	0x0000	30001	n/a
Read DI counter values	Holding register	3	0x0000	40001	%MW0
Clear DI counters	Coil	5, 15	0x0200	00513	%M512

Familiar ASCII Command Protocol:

When not using Modbus the ED range of devices can use the de facto industry standard ASCII command protocol implemented in the popular ADAM/NuDAM/EDAM modules. Examples include:

\$01M	read the name of device address 01
!01ED-588	device 01 replies that its name is ED-588
\$01F	read firmware version number of device address 01
!012.54	firmware version of device 01 is 2.54
@01	read digital input output status of device 01
>1A45	device 01 digital input data= 1A (=00011010) digital output data = 45 (=01000101)
\$012	read configuration of device 01
!01400500	device 01 40=typecode, 05 =gateway RS485 port is at 4800 Baud, 00=No checksum

ED-516 Ethernet 16 DI

COM Port on Windows Industry Standard Packages	On a PC running the Microsoft Windows family of OS's the ED Boost.IO Manager provides a standard COM port interface so enabling thousands of proven legacy applications to work straight out of the box. The COM port based driver means that ED-xxx devices are completely compatible with all popular packages such as: LabView, MATLAB, Agilent VEE.
Software Platforms Devices Supported	APIs and sample program code for: Microsoft .NET, C#, Visual Basic, C++, JavaScript, PHP, Java, Objective-C The ED sample codes running on Operating Systems such as Windows XP, Server 2008, Server 2012, Windows 7, Windows 8, and Linux based systems such as Android and Raspberry Pi allow you to run your applications on Servers, Desktops, Laptops, Tablets, Phones or low cost embedded devices, almost any device you wish.
Configuration Options	Windows Utility, Web Interface: Boost.IO driver provides familiar Serial COM port interface
OS Compatibility	Legacy COM porty drivers for: Microsoft Windows 10 32 bit & 64 bit Editions / Microsoft Windows 8 32 bit & 64 bit Editions / Microsoft Windows 7 32 bit & 64 bit Editions / Windows Server 2008 32 bit & 64 bit Editions / Server 2012/ Windows Server 2008 & Windows Server 2000/ Windows Vista 32 bit & 64 bit Editions / Windows Server 2003 32 bit & 64 bit Editions. TCP and web browser interface for other OS's & Linux, e.g. Android, Raspberry Pi
Industry Approvals	C-Tick, AEO (C-TPAT), WEEE, RoHS
Microsoft Approvals & Signed Drivers	Microsoft Certified Gold Partner Windows 10 32 bit & 64 bit Editions Windows 8 32 bit & 64 bit Editions Windows 7 32 bit & 64 bit Editions Windows Server 2008 32 bit & 64 bit Editions Windows Server 2008 & Windows 2000
OEM option Made In Customisable	Available for bulk buy OEM Manufactured in the UK by Brainboxes Brainboxes operate a 'Perfect Fit Custom Design' policy for volume users. More info: sales@brainboxes.com
Warranty Support	Lifetime - online registration required Lifetime Web, Email and Phone Support from fully qualified, friendly staff who work in and alongside the Product Development Team

ED-516 Ethernet 16 DI

Packaging	Installation CD (with manual, Microsoft signed drivers & utilities), Quick Start Guide
Device	Ethernet 16 DI
Packaged Weight	0.215 kg, 0.47 pounds
Packaged Dims GTIN Universal Code	235(I) x 170(w) x 62(h) mm, 9.25(I) x 6.69(w) x 2.44(h) inches 837324003185

Optional Accessories

PW-600: Power supply with connectors for UK, USA, EU and AUS mains socket. 'Tails' are suitable for connecting to screw terminal blocks

PW-650: USB connector fits any standard USB port, such as on a laptop or desktop PC, providing 5V power to a prewired screw terminal block useful for when you are configuring your ED device
