

## Heat Sink Compound - High Density 20g Syringe 10cc

### Product Highlights

- High Density Thermal Paste.
- White, non-curing and non-flowing thermally conductive heat sink compound.
- Heavily filled with heat-conductive metal oxide. Provides high thermal conductivity, low bleed and high temperature stability.
- Electrically insulating ( $2 \times 10^{15}$  ohm-cm).

### Specifications

Viscosity:	542,000 cP (542,000 mPa·s)
Density:	2.1g/cc
Bleed:	0.23%
Thermal Conductivity:	0.67 W/m·K
Thermal Resistance:	0.16 °C*cm <sup>2</sup> /W
Electrical Volume Resistivity:	$2 \times 10^{15}$ ohm-cm
Evaporation:	0.38%
Size:	20g Syringe (10cc)

### Storage and Handling

Store refrigerated or at room temperature 3-25°C (37-77°F). Allow 4 hours for thermal paste to reach an operating temperature of 20-25°C (68-77°F) before use.

### Shelf Life

>60 months

### Transportation

This product has no shipping restrictions. Shipping below 0°C (32°F) or above 25°C (77°F) for normal transit times by ground or air will not impact this product's stated shelf life.
